

## Full Circle Eye Repair

**Skin Type:** Wrinkles, dry, aging

### Day Formula Properties:

- Constricts capillaries with natural herbs.
- Decreases absorption of light into the eye lid, increasing the reflection of light which will bring out the natural tone of the skin.
- Contains peptides to inhibit muscular contraction, reducing the formation of wrinkles.
- Contains powerful antioxidants to prevent the destruction of collagen.
- Inhibits enzymes that destroy collagen.
- Works to decrease fluid build-up and de-puff.
- Soothing, anti-inflammatory, and protective against environmental assaults.

### Ingredients:

Deionized Water, Acetyl Hexapeptide-3, Glyceryl Stearate and PEG-100 Stearate, C 12-15 Alkyl Benzoate, Linoleic Ester, Behenyl Alcohol, Dimethicone, Polyacrylamide and C13-14 Isoparaffin and Laureth-7, Titanium Dioxide, Silica and Mica, ascorbyl Tetraisopalmitate, Oat Protein, Propylene Glycol, Phenoxyethanol, OPC, Butcher Broom, Horse Chestnut, Diazolidinyl Urea, Tocopherol, Disodium EDTA, Methylparaben, L-Phenylephrine HCL, Propylparaben.

### Night Formula Properties:

- Peptides work to stimulate, repair and increase collagen formation and at the same time minimize the formation of new lines.
- Vitamin A strengthens support tissue, aids in growth and repair of the epidermis, stimulates fibroblast cells to produce collagen and thicken the skin, improving firmness and elasticity

### Ingredients:

Deionized water, Cetearyl Alcohol and Ceteareth-20, dipentaerythrityl hexaheptanoate/hexacaprylate/hexacaprate, stearyl alcohol, phenoxyethanol, polyacrylamide and C 13-14 isoparaffin and laureth-7, retinyl acetate, propylene glycol, glucose oxidase, diazolidinyl urea, vitamin E acetate, methylparaben, propylparaben, butylated hydroxytoluene, butylated hydroxyanisole.

### Application:

Full Circle Eye Repair should be applied to the orbicularis oculi muscle which forms a complete circle around the eye area. Apply product beginning with the inside point of the eyebrow and above brow line over to temple area and down around lower eye

region. Using light pressure repeat until all product has been absorbed into the skin. Night Formula should be applied up to approximately 2 cm of lower lash line. Do not apply Night Formula to upper eye lid area.

**Presentation:**

Retail – 1 oz AM; 1 oz PM
