

## Madeliclear Peel System with Vitamin A Accelerator

Professional Use Only

**Properties:** MandeliClear Peel can be classified as a modified Jessner, containing 7% lactic, 7% salicylic and 7% resorcinol, in an ethanol base with quillaja bark. Also contains 9% mandelic acid, which is often derived from almond and wild cherry sources. Mandel is German for almond. This peel is safe, gentle, and well-tolerated by most skin types.

### Indications

- pigmentation issues associated with darker Fitzpatrick skin types.
- Effective for lightening pigmentation due to acne, melasma or photodamaged skin.

### Contraindications

- Aspirin or salicylic sensitivity – Important!
- Pregnancy
- Excessive open lesions on surface of the skins
- Highly sensitive skin type
