

Post Peel Lotion

A rich, velvety textured lotion that is anti-inflammatory and restorative to skin tissue.

Skin Type: Sensitive, irritated, sunburned, razor-burned, diaper rash, runner's chafing

Properties:

- Absorbs quickly, speeding relief to tissues compromised by peels, surgery, razor, outdoor exposure to sun or insect bites.
- Clinical studies demonstrate cellular improvement of UV-damaged skin.
- Soothing after microdermabrasion or a peel.
- Use post waxing.
