

## Vitamin A Rx Cream

A rich, powerful night-time repair cream that maximizes the skin building effects of Vitamin A while minimizing irritation.

 **Skin Type:** Aging skin, or skin requiring rejuvenation.

### Properties:

- A powerful night time repair formulated to maximize the effects of vitamin A while minimizing its unwanted side effects.
- Used as a treatment night cream for a limited amount of time, it works to soften fine lines, minimize wrinkles, firm lax skin, improve texture, and lighten discolorations.
- Contains 1.0% retinyl acetate
- Helps reverse signs of aging including sun damage, fine lines, rough uneven texture and color

### Contraindications:

- Not recommended for extremely sensitive skin types, i.e., rosacea or very dehydrated skin.
- Pregnant or nursing mothers
- Do not apply if using Retin-A®, Renova®, Accutane®, or glycolic acids.

### Feature Ingredients

Glucose Oxidase

Vitamin E

Retinyl acetate (1.0%)

Ingredients:

### Known Benefits

Regulates proliferation of epidermis; controls collagen production

Powerful antioxidant, healing

Regenerative

Deionized Water (Aqua), Cetearyl Alcohol and Ceteareth-20, Hydrogenated Polyisobutene, Stearyl Alcohol, Phenoxyethanol, Polyacrylamide and C13-14 Isoparaffin and Laureth-7, Retinyl Acetate, Glucose Oxidase, Propylene Glycol, Vitamin E Acetate, Acrylates C10-30, Alkyl Acetate Crosspolymer, Diazolidinyl Urea, Methylparaben, Propylparaben, Fragrance

### How to Use:

Use only under supervision of a skin care professional. Note that the skin has to build tolerance for vitamin A since natural and artificial light destroys vitamin A receptors in the cell.

Evenings 1, 2, 3

Apply small amount on entire face and neck between 9 and 11PM

Evenings 4, 5, 6, 7

Allow the skin to “rest”; use Hydrating Cream in place of Vitamin A Cream

Thereafter

Alternate 3 nights on – 4 nights off for six weeks.

GOAL

Build up tolerance so that client can use product consistently for 5 nights without signs of dryness or irritation.

NOTE

Do not use if erythema is present. Discontinue if irritation occurs.
